ABOUT ME

Software Engineering student at FPT University with hands-on experience in ReactJS, JavaScript, HTML, CSS, and REST API integration through academic and personal projects. Passionate about creating responsive and intuitive user interfaces, learning new technologies, and contributing to frontend development teams. Seeking a Front-end Internship opportunity to apply technical skills, gain industry experience, and continue growing as a developer.

EDUCATION

FPT UNIVERSITY - Bachelor of developer

2023 - Present

- Bachelor of Software Engineering (2023 – Present), focused on web development and frontend (ReactJS, JavaScript, HTML, CSS).
- UCSI University (Malaysia) – Exchange Program (2024)
- TOPIK 4 Korean Language Certificate.

PROJECTS

FRONTEND Developer | JournalTrendingSystem

5/2026 - Present

- **GitHub:** [Link GitHub Repo](#).
- **Technologies:** React.js, JavaScript, HTML, CSS, RESTful APIs, Git, Docker,
- **Responsibilities:**
 - + Developed responsive user interfaces using ReactJS, HTML5, and CSS3 for research trend analysis dashboards.
 - + Built reusable React components to improve code maintainability and ensure a consistent user experience.
 - + Utilized React Hooks (useState, useEffect) to manage component state and handle asynchronous data fetching.
 - + Integrated RESTful APIs to retrieve and display dynamic research and analytics data.
 - + Implemented search, filtering, and dashboard interaction features to enhance usability and data exploration.
 - + Handled loading, error, and empty states to improve application reliability and user experience.
 - + Collaborated with backend developers and UI/UX designers in an Agile/Scrum environment to deliver frontend features.
 - + Applied responsive design principles to ensure compatibility across desktop, tablet, and mobile devices.
 - + Used Git and Gitflow for source code management and team collaboration.
- **Achievements:**
 - + Delivered a responsive analytics dashboard for visualizing research trends and publication data.
 - + Improved frontend maintainability through reusable component architecture.
 - + Enhanced user experience with responsive layouts and dynamic data visualization features.
 - + Strengthened practical skills in ReactJS, state management, API integration, and modern frontend development workflows.

SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Responsive UI, State Management
- **Integration:** RESTful APIs, Async Data Handling
- **Tools:** Git, Gitflow, SCRUM, Docker
- **Concepts:** UI/UX Principles, Component-Based Architecture, Performance Optimization (Frontend)
- **Soft Skills:** Problem-solving, Team Collaboration, Communication
